

# Aditya Sharma

Delhi, India · [adityasharma27120809@gmail.com](mailto:adityasharma27120809@gmail.com) · [linkedin.com/in/adityasharma1206](https://www.linkedin.com/in/adityasharma1206) · [github.com/adityasharmass12](https://github.com/adityasharmass12) · [adityaaaaportdev.vercel.app](https://adityaaaaportdev.vercel.app)

## PROFESSIONAL SUMMARY

Computer Science student at Delhi Technical Campus (GGSIPU) with a primary focus on Artificial Intelligence and Machine Learning, backed by solid frontend development skills. Passionate about building intelligent, real world applications using LangChain, Python, React.js, and TypeScript. Actively exploring AI ML through hands on projects and communities while maintaining strong fundamentals in DSA and software engineering. Seeking opportunities at the intersection of AI and development.

## EDUCATION

**Delhi Technical Campus – Guru Gobind Singh Indraprastha University** New Delhi, India  
*Bachelor of Technology in Computer Science and Engineering – CGPA: 7.79/10* Sep 2024 – Jul 2028

- Relevant Coursework: Data Structures & Algorithms, Object Oriented Programming, C/C++, Python, Web Technologies, Discrete Mathematics, Operating Systems
- Active participant in coding clubs, hackathons, and AI/ML focused student organizations on campus.

**Kendriya Vidyalaya** India  
*Senior Secondary (XII) – 75% | Secondary (X) – 74%* 2022 | 2024

- Science stream with Computer Science; built early foundations in C++, Python, and algorithmic thinking.

## TECHNICAL SKILLS

**Programming Languages:** C, C++, Python, JavaScript, ReactJS, TypeScript, HTML, CSS  
**Frameworks & Libraries:** React.js, LangChain, Tailwind CSS, Node.js (basics)  
**Core CS Competencies:** Data Structures & Algorithms, Object Oriented Programming, REST API Design, AI/ML Fundamentals, Prompt Engineering  
**Developer Tools & Platforms:** Git, GitHub, VS Code, Vercel  
**Soft Skills:** Team Leadership, Problem Solving, Cross-functional Collaboration, Communication, Event Coordination, Content Creation

## PROJECTS

**IRCTC-Neo – Modern Railway Booking Platform** | *React.js, TypeScript, Tailwind CSS, REST APIs* [GitHub](#) | 2025

- Engineered a modern, redesigned IRCTC-inspired railway booking web application with a clean, intuitive UI – focused on improving the user experience over the existing platform through faster navigation and minimal design.
- Implemented core booking flows including train search, station selection, journey filtering, and seat availability views using React.js with TypeScript for type-safe, scalable component architecture.
- Designed a fully responsive, mobile first interface using Tailwind CSS, ensuring consistent performance across devices and demonstrating strong frontend engineering and UI/UX principles.
- Applied modular component design, reusable hooks, and state management best practices – showcasing production grade code organization aligned with industry standards.

**Personal Developer Portfolio** | *React.js, TypeScript, Tailwind CSS, Vercel* 2025

- Designed, developed, and deployed a fully responsive personal portfolio website from scratch using React.js and TypeScript, implementing component based architecture and dynamic routing for a seamless user experience.
- Optimized for SEO and performance, achieving fast load times and production-grade reliability on the Vercel deployment platform, accessible at [adityaaaaportdev.vercel.app](https://adityaaaaportdev.vercel.app).
- Applied Tailwind CSS utility classes for pixel perfect, mobile first design — demonstrating strong UI/UX sensibility and attention to engineering craft.

**DSA & Competitive Programming Practice** Ongoing

- Consistently solved algorithmic problems spanning arrays, linked lists, binary trees, graphs, dynamic programming, recursion, and backtracking – core areas evaluated in Google's technical interview process.
- Practiced time and space complexity analysis, developing strong habits of writing optimized, clean, and readable code aligned with engineering standards at top-tier technology companies.

## EXPERIENCE

---

### **AI Renaissance (A.I.R)**

New Delhi, India

*Core Member – Video Editor*

*Sep 2025 – Present*

- Serve as a core team member of an AI-focused student organization, producing and editing technical video content that communicates complex AI/ML concepts to a broad student audience.
- Collaborate cross-functionally with designers, writers, and speakers to develop structured content pipelines, improving publishing consistency and overall team output quality.
- Contribute to the organization's mission of making AI education accessible, directly supporting community learning initiatives aligned with Google's values around knowledge sharing.

### **Smaaash Entertainment Pvt. Ltd.**

New Delhi, India

*Campus Ambassador*

*Jun 2025 – Present*

- Appointed as the official student representative for Smaaash on campus, driving brand engagement through strategic outreach, events, and peer community building.
- Demonstrated leadership, proactive communication, and stakeholder management – skills directly transferable to Google's collaborative, team-driven engineering culture.

### **TheFossClub Hackathon**

New Delhi, India

*Social Media Manager – Volunteer*

*Feb 22–23, 2025*

- Managed end-to-end social media communications throughout a 24-hour hackathon, coordinating real-time updates, participant engagement, and event amplification across platforms.

### **IgniteRoom**

New Delhi, India

*Event Manager – Volunteer*

*Jun 28–29, 2025*

- Coordinated logistics and participant experience for a technical event, managing on-ground operations to ensure a smooth, high-quality, and memorable experience for all attendees.

## ACHIEVEMENTS & ACTIVITIES

---

**3x Hackathon Finalist:** Reached the final rounds of three competitive hackathons, building full stack and AI powered solutions under tight time constraints, demonstrating rapid prototyping and teamwork under pressure.

**Active Competitive Programmer:** Regularly participates in online coding contests and algorithm challenges, continuously improving problem solving speed and accuracy across DSA topics.

**AI/ML Community Builder:** Core member of AI Renaissance, actively contributing to student awareness and education around artificial intelligence trends and technologies.

**Tech Enthusiast & Lifelong Learner:** Continuously explores emerging technologies, frameworks, and engineering best practices; stays current with industry trends to build more impactful software.
